

Site Conservation Plan for the Red Banks and Door Peninsula and Islands Landscape

Restoration Plan Database: Crystal Reports of Individual Plan Summaries

I. BASIC PLAN DATA

Plan name:

Site Conservation Plan for the Red Banks and Door Peninsula and Islands Landscape

Brief description of plan:

The strategies outlined in the plan were created to protect the truly extraordinary concentration of rare species and natural communities that exist within the region. The plan includes two planning units: Red Banks and the Northern Door Peninsula and Islands Landscapes. The combined acreage of the two sites is 190,000 acres; 2,000 and 188,000 respectively. Red Banks stands alone as a functional site as it is ecologically separate from the northern Door landscape.

Region the plan is located within:

Great Lakes Region

Watershed(s) included within the plan:

L043x

Area plan covers (in square miles):

297.00 square miles

Plan scale:

County

Plan's lead organization(s):

The Nature Conservancy

Plan's Main Contact Information:

Guenevere Abernathy
Project Director
The Nature Conservancy
653 County U
Algoma, WI 54201
920-743-8695
gabernathy@tnc.org

On-line version of plan:

Date of original plan:

7/2000

II. TECHNICAL INFORMATION

Plan includes restoration goals: Y

Level of detail of the goals:

G

Summary of the goals:

The plan discusses goals for 6 conservation targets for the Door Peninsula and 4 for the Red Banks. For example, for the Door Peninsula's 1st target, one of the goals is to maintain and restore where necessary the integrity and diversity of this ecological system. This will entail preserving intact ecotones between all natural communities in the system, and maintaining the integrity of all large forest blocks and open marsh habitats present. This goal also calls for the maintenance or restoration of forested corridors between existing major forest blocks.

Plan recommends restoration of specific project sites:

Y

Plan includes a discussion of funding sources:

Y

Plan addresses long-term protection of restored sites:

Y

Partners included in developing the plan:

Federal
State
Local
Non-profit Organizations

Type(s) of public outreach included during plan development:

Held public workshops, meetings, open house, or scoping meetings

Plan includes public outreach as part of plan implementation (e.g. annual public meeting, local group participation):

Y

Plan discusses the application of innovative approaches to restoration:

N

Plan make use of GIS mapping capabilities:

N

Plan addresses monitoring/reference sites for ecosystem level monitoring (baseline conditions) by:

G

Plan addresses monitoring/reference sites for project level monitoring by:

G

The plan discusses or coordinates with other restoration plans covering the same geographic area:

N

Other plan names:

Plan contains detailed information on historic and/or current habitat size, rate of loss, acres restored or protected, etc.):
